

ARNGREN.NET

STANDARDS GUIDE

Art Direction & Brand Guidelines

Site Goals

Transform Arngren.net from a chaotic, overwhelming e-commerce experience into Norway's premier destination for hobby enthusiasts, DIY innovators, and tech-savvy families. Create an intuitive, mobile-first platform where passionate makers can quickly discover specialized products, from electric vehicles to robotics, from solar solutions to RC aircraft, supported by comprehensive specifications, expert knowledge, and a thriving community.

Key Objectives:

- Reduce time-to-product from 15+ minutes to under 3 minutes
- Build trust through professional design and clear information hierarchy
- Enable mobile shopping (70% of target user browsing)
- Support technical decision-making with clear specifications

- Reflect sustainable values and quality-focused purchasing

Target User Persona

Lars Andersen - "The Methodical Maker"

Age	38 years old
Occupation	Senior Civil Engineer at Multiconsult
Location	Bergen, Norway
Tech Profile	iPhone 15 Pro, MacBook Pro, tech-savvy, 70% mobile browsing
Annual Budget	€5,000/year on DIY projects and hobby equipment
Values	Quality over price, sustainability, precision, time efficiency

"I'm an engineer ,I need specifications, not sales pitches. My time is more valuable than saving €20 on a website that wastes 30 minutes."

Typography

Maximum 2 typeface families to maintain visual coherence and professional appearance. Inter serves multiple purposes with different weights, while Poppins provides distinctive headline personality.

1. Headline Font: Poppins Bold

ABCDEFGHIJKLMNOPQRSTUVWXYZ

abcdefghijklmnopqrstuvwxyz

0123456789 åøæ

Font Family	Poppins
Weight	700 (Bold)
Sizes	36px - 72px (responsive)
Usage	Main page headlines, hero text, category titles, major section headings
Color	Workshop Charcoal #413B2D

Example: **FIND YOUR NEXT PROJECT**

2. Primary Typeface: Inter

Inter serves all UI and content needs with multiple weights (Regular 400, Medium 500, SemiBold 600). Designed specifically for digital screens with excellent legibility at all sizes.

2a. Subhead: Inter SemiBold (600)

ABCDEFGHIJKLMNOPQRSTUVWXYZ

abcdefghijklmnopqrstuvwxyz 0123456789 åøæ

Weight	600 (SemiBold)
Sizes	24px - 32px
Line Height	1.4
Usage	Section introductions, product category descriptions, feature highlights

Color Palette

Five carefully selected colors that reflect target user values: sustainability (Teal), craftsmanship (Tan), precision (Blue), professionalism (Charcoal), and Scandinavian clarity (White).

Sustainable Teal	Craftsman Tan	Precision Blue	Workshop Charcoal	Clean White
#23A792	#AE9A81	#3193DA	#413B2D	#FEFEFE
RGB(35,167,146)	RGB(174,154,129)	RGB(49,147,218)	RGB(65,59,45)	RGB(254,254,254)
CTAs, Eco badges, Accents	Section backgrounds, Warmth	Links, Interactive elements	Text, Headers, Footer	Primary background (75%)

Logo

ARNGREN.NET

Logo Specifications

Typeface	Poppins Bold
Primary Color	Workshop Charcoal #413B2D
Minimum Size	120px wide for digital, 1 inch for print
Clear Space	Minimum 24px on all sides (equal to height of 'A')

Logo Rules

- DO NOT invert colors (white logo on dark background)
- DO NOT place on busy backgrounds or over product images
- DO NOT stretch, condense, or rotate logo
- DO NOT use alternate fonts or change letter spacing
- ALWAYS maintain clear space - no text, graphics, or elements within 24px

Buttons

Primary call-to-action buttons use Sustainable Teal for energy and action. Secondary buttons use Precision Blue outline for lower-priority actions.

Primary Button (CTA)

State	Background	Text	Border Radius
Normal	#23A792	White #FEFEFE	6px
Hover	#1E8C7A	White #FEFEFE	6px
Active/Down	#1A7666	White #FEFEFE	6px

Button Specifications:

- Font: Inter Medium (500), 16px
- Padding: 12px vertical, 24px horizontal
- Minimum width: 120px
- Transition: 0.2s ease for smooth state changes

Photo Treatment

Professional product photography with consistent treatment maintains visual quality and builds trust.

Product Photos

- **White or clean background (#FFFFFF) for all product shots**
- Subtle drop shadow for depth: 0px 4px 12px rgba(0,0,0,0.08)
- Minimum resolution: 1200px on longest side
- Format: WebP with JPEG fallback for compatibility
- Sharpening: Moderate (0.3-0.5) for web clarity
- Border radius: 8px for card-style product displays

Lifestyle/Hero Images

- Natural lighting preferred, avoid heavy filters
- Color correction to match mood board palette
- Aspect ratio: 16:9 for hero images, 4:3 for category cards
- Image compression: 70-80% quality for optimal web performance

Dos and Don'ts

✓ DO

- Use generous white space (minimum 24px between major elements)
- Maintain consistent spacing: 8px, 16px, 24px, 32px, 48px system
- Keep text line length between 50-75 characters for readability
- Use color strategically: Teal for CTAs, Blue for links, Tan for sections
- Test all designs on mobile devices (70% of target user browsing)
- Ensure minimum 4.5:1 contrast ratio for all text (WCAG AA)
- Use Roboto Mono for all technical specifications and data

X DON'T

- **Never place text directly over busy product images**
- **Never use more than 3 fonts total (Poppins, Inter, Roboto Mono)**
- **Never use colors outside the 5-color palette**
- **Never compress product images below 70% quality**
- **Never use decorative fonts or script typefaces**
- **Never create button sizes smaller than 44x44px (mobile tap target)**
- **Never use pure black (#000000) - always use Workshop Charcoal (#413B2D)**
- **Never auto-play videos or animations (respects user bandwidth)**

Grid & Spacing System

Consistent spacing creates visual rhythm and professional appearance. Use 8-point grid system for all measurements.

Spacing Scale

Scale	Value	Usage
XS	8px	Icon spacing, small gaps
SM	16px	Between related elements
MD	24px	Component padding, card spacing
LG	32px	Section spacing
XL	48px	Major section breaks

Container Width

- Desktop Max: 1200px centered
- Tablet: 100% with 24px side padding
- Mobile: 100% with 16px side padding
