

Overview of the prototype flow.

For this prototype I tried to connect some of my pages and realized that (maybe) I might need a new page for all my categories. Most of the intuitive buttons are connected to something at least

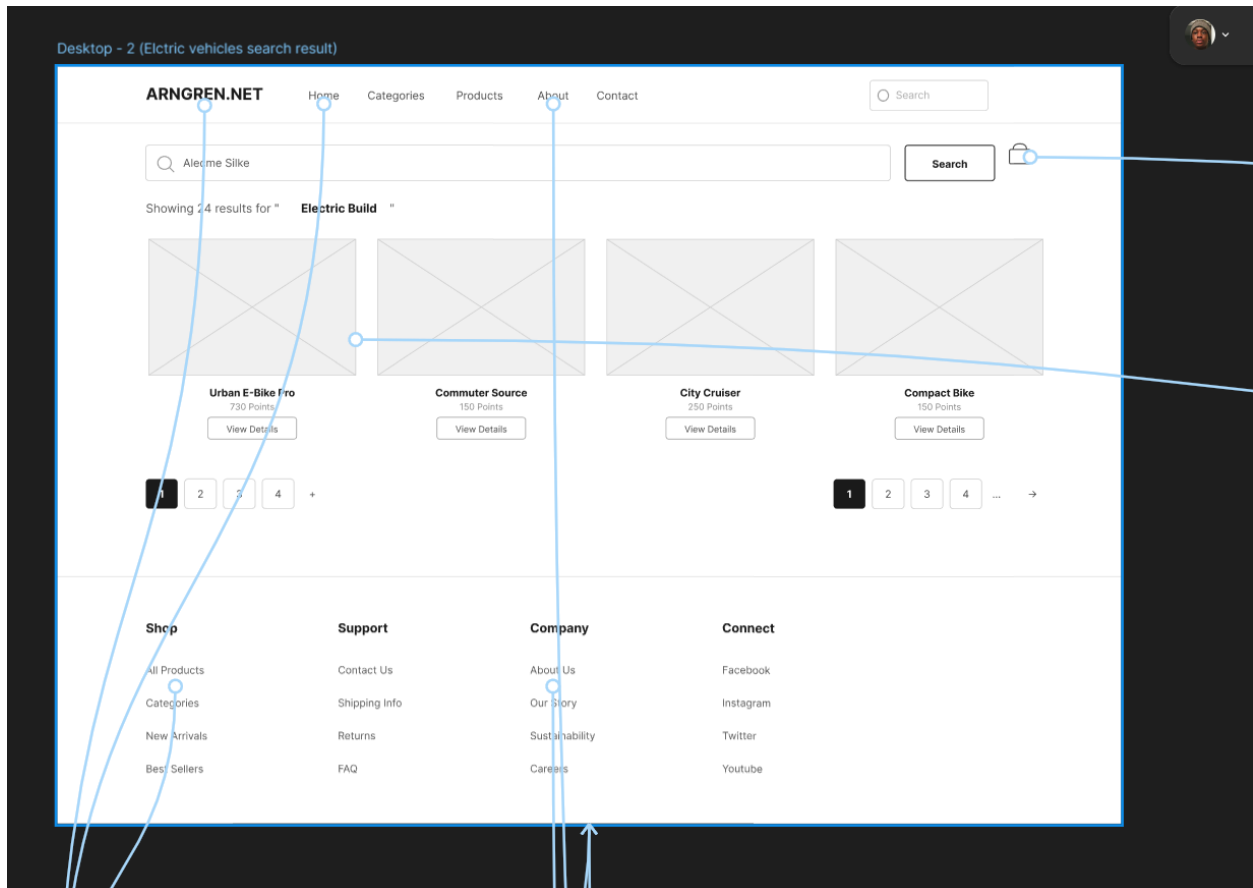

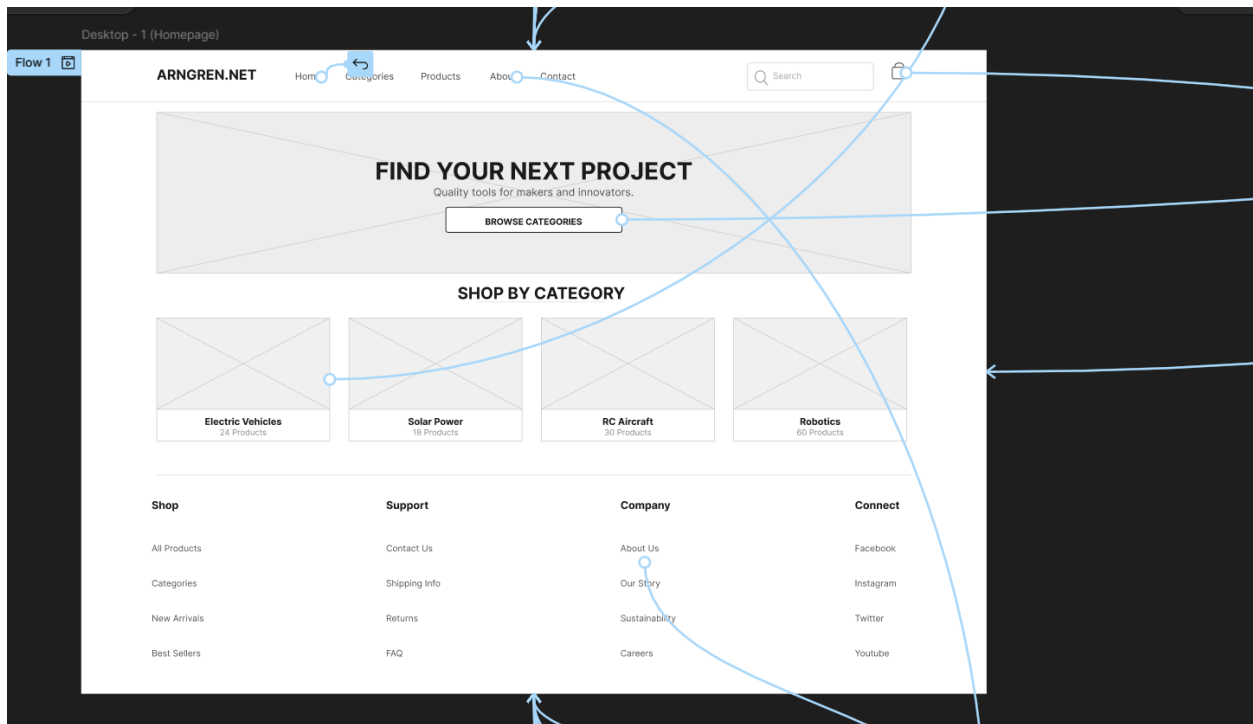

Here's a quick tab on some buttons and (if they work) where they might take you:

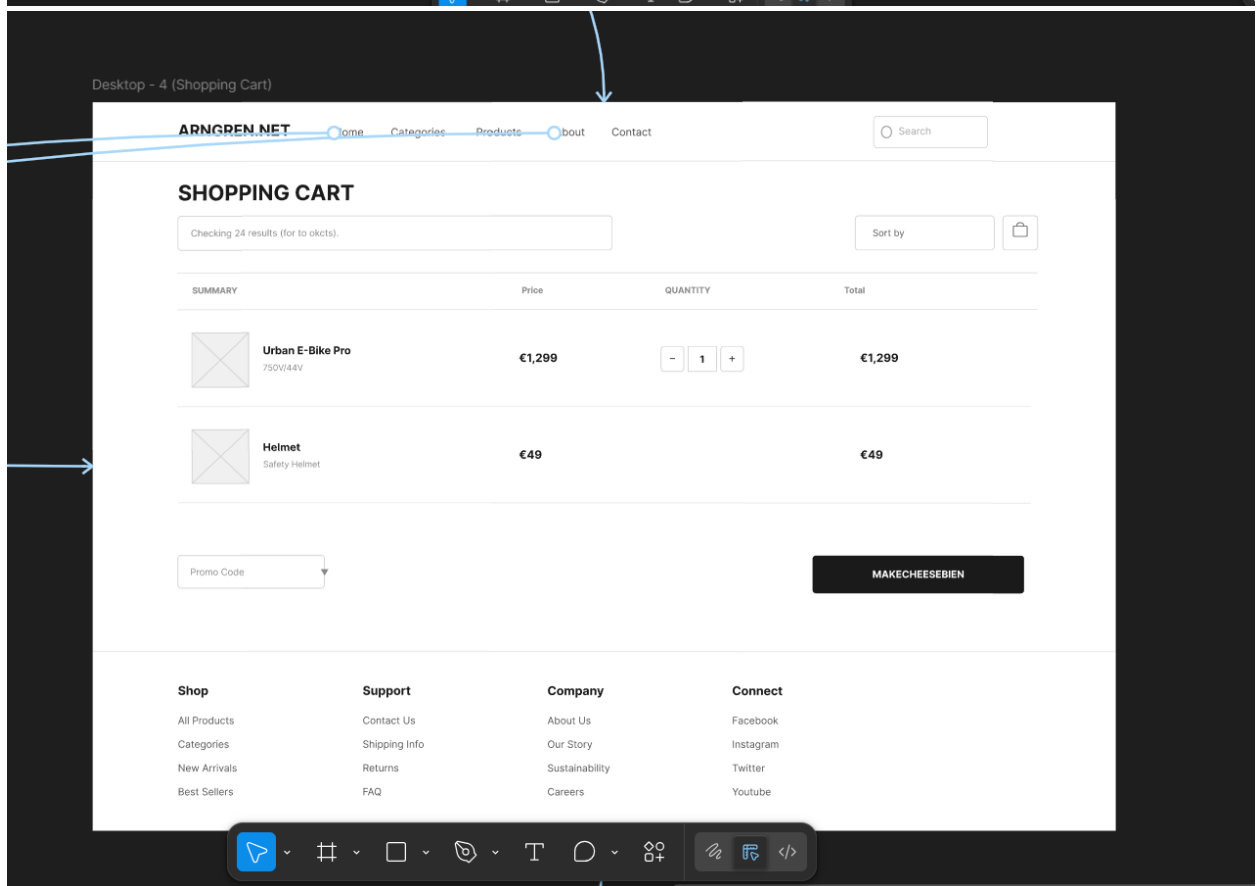

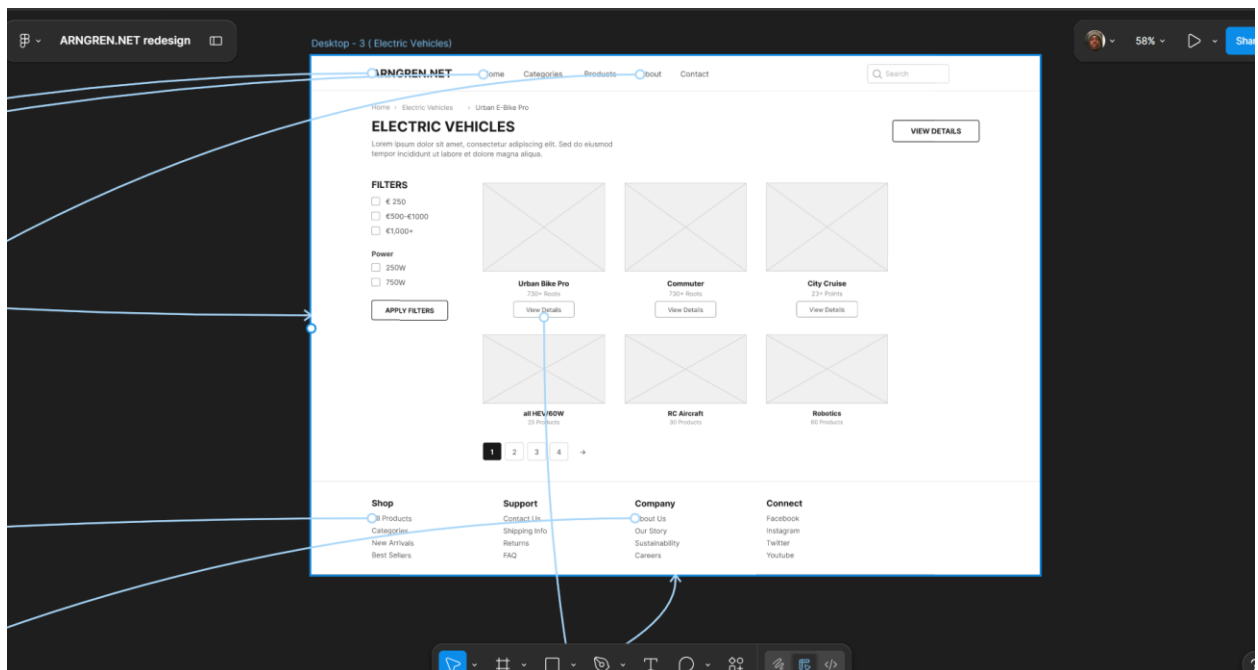

Page	Element to Click	Destination
Homepage	"Browse Categories" button	Electric Vehicles
Homepage	"Electric Vehicles" card	Electric Vehicles
Homepage	"About Us" footer and header link	About US

Page	Element to Click	Destination
Category	"View Details" button	Product Detail
Product Detail	"Add to Cart" button	Shopping Cart
Shopping Cart	Checkout button	Checkout
Search Results	"View Details" button	Product Detail

Also the ARNGRN.NET will also take you back to the main page.

I didn't know how I was supposed to include screenshots of every pages but I hope this helps.:
